

## What Types of Filament Can I Print With?

The Rostock Max v1, v2, and Orion Delta are all capable of printing many different types of materials including:

- ABS
- BronzeFill
- Carbon Fiber PLA
- NinjaFlex
- NinjaFlex Semi-Flex
- PLA
- Taulman T-Glase
- Taulman Bridge
- WoodFill

This is not an exhaustive list, the most important criteria is that the filament must be 1.75mm in diameter and have a printing temperature of 247C or less.
